Accommodations	Frank Russell

Shooting coat patches have been ordered and will be mailed as soon as they are received. With this same mailing I intend to include several suggestions for the 1962 matches. After watching the thirteen hour endurance contest on Saturday I have concluded that we should adopt the National Match Course Aggregate for our Saturday program. This would still be a good program but would go much faster. Also there is a good method, as yet unused, that would eliminate pit changes. More on these items later. Please note the special bulletin regarding the Civilian Team for the National Matches. (elsewhere in the bulletin).
